DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 5 & 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Cox (US Patent No. 5,207,074). Cox discloses a refrigerant coil apparatus with an associated condensate drain pan structure and comprising , a drain pan with a downwardly sloped drain troughs (116) through which condensate dripping from a coil (80) flow into a front end part (104) – see column 10, lines 25-34.

Allowable Subject Matter

Claims 1-4 & 18-24 are allowed over the prior art of record.

Claims 6 & 8-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 12/20/2004 have been fully considered but they are not persuasive. Cox discloses a downwardly sloped drain pan for collecting coil condensate and a front end part for discharging condensate.
